

An AP Human Geography Test Bank, Version 1.0

Authors

Richard Gindele, Theodore Gutshall, David Palmer, and David Valdez

Editors

Steven Jennings and Rebecca Theobald

The Colorado Geographic Alliance awarded a grant to a group of AP Human Geography teachers in Colorado for the purpose of developing an AP Human Geography test bank. The team developed a set of concepts based on the AP Human Geography outline. These concepts were used to develop sets of Multiple Choice and Free Response Questions for each of the units in the AP Human Geography outline except Unit I. On this CD there are six main files representing Units II through VII. In each of these main files are four files that reflect the subject matter covered in each of the units. These files are the concepts, multiple choice questions (MCQs), free response questions (FRQs), and an answer key for the multiple choice questions. The multiple choice questions are organized by the concepts outlined in the concept file. In the multiple choice file the concepts are in bold and numbered as they are in the concept file. The correct answers for the multiple choice questions are in the answer key file and are in bold in the multiple choice file. It is our hope that these materials are a great addition to your classroom. We envision this CD as just the start. We encourage you to send your comments and suggestions to coga@uccs.edu. In the future, we will be adding an index. We look forward to your observations about this material.
