

How to Fold the Giant Traveling Map of Colorado

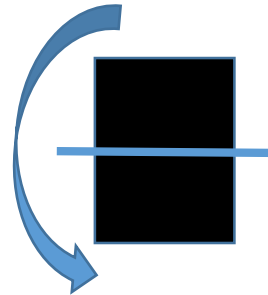

(Sweep the Map before folding for storage or transportation.)

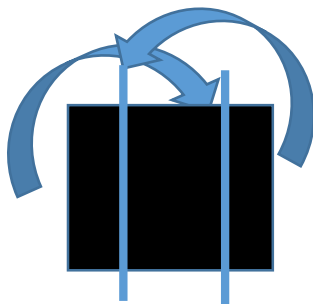

1. Fold the map in thirds the long way.

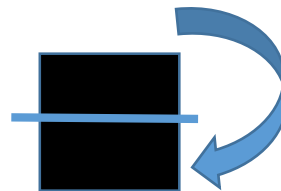

2. Fold the map in thirds the short way.

4. Now fold in half the short way.

3. Fold the folded map in thirds again the long way.

5. Finally, fold in half the short way once again and place carefully in the provided tub.

Tidy map folding allows the map to travel neatly. Please make sure corners are aligned and edges and folds are flat.
